

Project Update:

Bolton Road & Marietta Boulevard Intersection Improvement Project

City of Atlanta
Department of Public Works

Richard Mendoza, Commissioner

December 2014

Project: Bolton Road & Marietta Boulevard Intersection Improvement Project
Project ID#: 006261 CD: 9 NPU: D Contractor: CMES Incorporated

Description: This project scope includes the closing of Adams Drive and the planned closing of Plant Road access, upgrading the existing traffic signals, and improving pedestrian facilities.

Other elements of the project include the installation of an additional turn lane on the eastbound leg of Bolton Road, ADA (Americans with Disabilities Act) compliant sidewalks, wheelchair ramps, concrete curb and gutter, drainage and piping structures, street resurfacing, and restriping of the travel lanes.

Note: In keeping with the City's environmental commitment, we provided an alternate route for the Adams Drive traffic to access Marietta Boulevard until the design and construction of the Adams Drive realignment to intersect with Marietta Boulevard and Moore's Mill Road Extension project is completed.

Phase: Construction

Schedule Status: On schedule

Construction Start Date: March 2013

Funding Sources: Federal LCI (Livable Community Initiative) & Local City of Atlanta Funding

Project Status: This project is substantially complete.
